Summary

- 01** Q1 2023 sales review
- 02** Update on disposal program
- 03** FY 2023 guidance confirmed

Q1 2023 sales of €6.6bn, +29.0% on a reported basis and +17.6% on an organic basis; strong outperformance of 1,490bps

> Strong sales growth of +29% on a reported basis, driven by:

- Scope effect of +12.0%, related to one additional month of HELLA (consolidated since February 1, 2022)
- Organic growth of +17.6% vs. global automotive growth of +2.7%

> Strong outperformance of 1,490bps included:

- Favorable geographic mix impact of c. 400bps
- Positive impact related to inflation pass-through of c. 240bps

All business groups and three main regions outperformed market growth

Q1 2023 SALES (in €m)

Seating

31% of Group consolidated sales in the period

Organic growth of +22.5% in the quarter mainly reflected organic growth in Europe and China:

- In Europe: mainly with VW, Stellantis, RNM, Daimler and BMW
- In China: mostly with Chinese OEMs (notably BYD)

Interiors

18% of Group consolidated sales in the period

Organic growth of +17.3% in the quarter mainly reflected organic growth in Europe and North America:

- In Europe: mainly with Stellantis, RNM, BMW (ramp-up of 7-Series) and JLR (Range Rover Sport)
- In North America: mainly with Ford, a global EV company and new EV OEMs (Lucid, Rivian,...)

* Restated for SAS (part of the "Interiors" Business Group), presented as Discontinued operations as from January 1, 2022

** Source: S&P Global Mobility (ex-IHS Markit) dated March 2023

Clean Mobility

18% of Group consolidated sales in the period

Organic growth of +11.2% in the quarter mainly reflected organic growth in Europe and Asian countries (excluding China):

- In Europe: mainly with VW (including Audi C8 & Q7)
- In Asian countries (excluding China): mostly with HKMC (clearance of backlogs caused by chip shortage issue)

Electronics

15% of Group consolidated sales in the period

Organic growth of +13.3% in the quarter represented the combined growth of HELLA Electronics and Faurecia Electronics.

The performance of HELLA Electronics (c. three quarters of total Electronics reported sales in the quarter) was driven by continuous demand for electrification components such as high-voltage battery management systems and radar applications.

* Restated for SAS (part of the "Interiors" Business Group), presented as Discontinued operations as from January 1, 2022

APPENDIX

Definitions of terms

Used in this document (1/3)

SALES GROWTH

Faurecia's year-on-year sales evolution is made of three components:

- A “**Currency effect**”, calculated by applying average currency rates for the period to the sales of the prior year,
- A “**Scope effect**” (acquisition/divestment),
- And “**Growth at constant currencies**”.

As scope effect, Faurecia presents **all acquisitions/divestments**, whose sales on an annual basis amount to more than €250 million.

Other acquisitions below this threshold are considered as “**bolt-on acquisitions**” and are included in “**Growth at constant currencies**”.

In 2020, there was no effect from “bolt-on acquisitions”; as a result, “Growth at constant currencies” is equivalent to **sales growth at constant scope and currencies** also presented as **organic growth**.

Definitions of terms

Used in this document (2/3)

ADJUSTED EBITDA

Adjusted EBITDA is Operating income as defined above + depreciation and amortization of assets; to be fully compliant with the ESMA (European Securities and Markets Authority) regulation, this term of “Adjusted EBITDA” will be used by the Group as of January 1, 2022 instead of the term “EBITDA” that was previously used (this means that “EBITDA” aggregates until 2021 are comparable with ‘Adjusted EBITDA” aggregates as from 2022).

OPERATING INCOME

Operating income is the Faurecia group’s principal performance indicator. It corresponds to net income of fully consolidated companies before:

- Amortization of intangible assets acquired in business combinations;
- Other non-recurring operating income and expense, corresponding to material, unusual and non-recurring items including reorganization expenses and early retirement costs, the impact of exceptional events such as the discontinuation of a business, the closure or sale of an industrial site, disposals of non-operating buildings, impairment losses recorded for property, plant and equipment or intangible assets, as well as other material and unusual losses;
- Income on loans, cash investments and marketable securities; Finance costs;
- Other financial income and expense, which include the impact of discounting the pension benefit obligation and the return on related plan assets, the ineffective portion of interest rate and currency hedges, changes in value of interest rate and currency instruments for which the hedging relationship does not satisfy the criteria set forth in relationship cannot be demonstrated under IFRS 9, and gains and losses on sales of shares in subsidiaries;
- Taxes.

Definitions of terms

Used in this document (3/3)

NET CASH-FLOW

Net cash-flow is defined as follow: Net cash from (used in) operating and investing activities less (acquisitions)/disposal of equity interests and businesses (net of cash and cash equivalents), other changes and proceeds from disposal of financial assets. Repayment of IFRS 16 debt is not included.

NET FINANCIAL DEBT

Net financial debt is defined as follow: Gross financial debt less cash and cash equivalents and derivatives classified under non-current and current assets. It includes the lease liabilities (IFRS 16 debt).

DEBT COVENANT

Debt covenant is the ratio Net financial debt at the end of the period vs. Adjusted EBITDA over the last 12 months; it is tested twice every year at June 30 and at December 31.
