- 17.9** Should a recurrent failure make it necessary to replace a whole series of Products or Company' products into which the Contractual Products have been assembled, for instance because an analysis of defects in each individual case is not economical, not possible or not reasonable, the Supplier must also bear the above-mentioned costs also to the part of the affected series that does not show any technical defects.
- 17.10** The Supplier warrants to only use FOSS in or with a Result which is licensed as a license specified in a separate OK List Annex. The use of FOSS, which is subject to license conditions other than those specified in the separate OK list Annex or the use of any FOSS which will trigger a copyleft effect, requires the express prior written consent of the company. Regarding any FOSS that the Supplier has used during the performance of the Contract (included in any Result or required for the use of any Result), the Supplier warrants:
