2.1. Introduction

This guideline describes the Faurecia requirements regarding the labels to use to tag the Packages and Handling Units when deliveries to Faurecia are done to meet the Manifests issued by Faurecia. In this document the wording “Package” represents the packaging in which the product itself is loaded; the wording “Handling Unit” represents the pallet; “Simplified Handling Unit” is used for a package which is handling unit at the same time. At Faurecia the logistic method to level the requirements and to control the procurement through Manifests is called LISA; the labels described here may be called the LISA labels.

Faurecia requires ETI9 as default standard label especially for Europe and Asia perimeter. In North and South America the B-10 label format is allowed.

2.2. Manifests and Package labels, considerations of communication

Upon agreement, Faurecia may communicate to the Supplier Shipment requests through Manifests. A Manifest is a document specifying a delivery that is to be collected at the Supplier or dispatched from the Supplier on a

specific day and time. The document contains details on the material to be despatched and on the dates and times, despatch date and time and expected delivery date and time.

One Manifest is generated per despatch/pick-up time window and per truck. The Manifests are issued regularly, generally once per week.

The labelling of the packaging is mandatory, at both levels Package and Handling Unit.

2 sources are available to retrieve the Manifests issued by Faurecia and the labels:

Web Portal: the Supplier can connect onto a portal operated by Faurecia and from it, download the Manifest, the Package labels to tag the materials despatched to Faurecia against this Manifest, and also the Handling Unit/ Pallet labels when they are required.

EDI: most of the informations of the Manifest can be transmitted to the Supplier as an EDI message according to the EDIFACT DELJIT D96A standard. Once this message integrated, the Supplier may print the Package and Handling Unit labels by means of its own system, providing that the labels obtained meet the specifications described hereafter. It is alternate method to the retrieval of labels from the Web Portal.

2.3. Labels referenced standards

For the Package and for the Handling Unit, Faurecia has referenced one standard of label meeting the requirements: the **ETI9** standard.

3. ETI9 detailed specification

3.1. Package or Simplified Handling Unit.

ETI9 standard, sample

The sample hereunder is for information only and it shall not be used to code any application. Actual detailed specifications follow later in this document.

Functional specification and EDI cross-reference

Columns:

- Sts M/C: status at Faurecia. **M=Mandatory C=Conditional**
- Structure (data element): identification of the segment containing the information according to EDIFACT; between brackets is the identification of the data element.

Field No.	Field name	Sts M/ C	Label ETI9 "Package"	Manifest DELJIT D96A	ASN DESADV D96A
			Comments, examples	Structure (data element)	Structure (data element)
A1	Ship-to	M	Name , town of the Faurecia ship-to site,	SG2-NAD+CN (3036 3164)	SG2-NAD+CN (3036 3164)
A2	Unloading point	M	Identification of the place of discharge at Faurecia site.	SG4-SEQ-LOC+11 (3225)	SG2-NAD+CN-LOC+11 (3225)
A3	Destination point	M	Final destination at Faurecia. Represents the point of consumption within Faurecia production organisation.	LIN-SG9-LOC+159 (3225)	Not required
A4	Ship-from	M	Name, town of the ship-from supplier site.	SG2-NAD+SE (3036 3164)	SG2-NAD+SE (3036 3164)
B1	Sebango	M	Additional identification assigned by Faurecia to the product. constant for a product.	LIN-PIA+1 (7140 with 7143 ="MP")	Not required
B2	Document number	M	Manifest sequence number issued by Faurecia, format is YYYYMMDDTT-SU where: YYYY: scheduled delivery date, year MMDD: scheduled delivery date, month and day TT: transport number within the day, value 01 to nn SU : suffix, 00=initial manifest .	SG12-RFF+AAO (1154) See note a)	Not required. See note a)
B3	Description	M	Product description. It is recommended to print the description found in the schedules from Faurecia.	LIN-IMD (7008)	LIN-IMD (7008)
B4	Security sign	C	Upon request from Faurecia. Not transmitted in EDI messages. May be mentioned in the Logistics agreements.	N/a	N/a
B5	Quantity (Q)	M	Quantity of product packed in this packaging. This quantity must be conform to the standard quantity per package agreed with Faurecia for the concerned product and quoted in the Logistics agreement. No insignificant leading zeroes in clear text neither in barcode. No decimal positions. <u>Note:</u> if the unit of measure is the Piece, then no mention of it is necessary. If the unit is not the Piece, then it must be printed, in clear text only, at the right of the figure, at the same level than the title of the box, in characters with height 2 mm. Unit of measure conform to TDED 6411.	LIN-SG11-QTY+52 (6060)	SG11-PAC-QTY+52 (6060)
B6	Label Number (S)	M	Pack Number assigned by the supplier to this packaging. This number must be unique and never reused for the concerned product or any other product, at least within the year. The Barcode identifier "S" is printed at the right of the title of the box and in the same font.	N/a	SG13-GIR+3 (7402 with 7405="ML")
C1	Pack Type	C	Packaging type assigned by Faurecia.	LIN-PAC (7065)	SG11-PAC (7065)
C2	Logistic Reference	C	Product Number assigned by the Supplier.	LIN-PIA+1 (7140 with 7143 ="SA")	LIN-PIA+1 (7140 with 7143 ="SA")
C3	Part Number (P)	M	Material number assigned by Faurecia.	LIN (7140)	LIN (7140)

Notes

a)	Not in label layout		MURN – Manifest Unique Reference Number – unique reference assigned by Faurecia to a Manifest, furtherly used as reconciliation reference in the billing process. provided in the Manifest document, and mandatory in the ASN from the Supplier.	SG12-RFF+MA (1154)	SG1-RFF+MA (1154)
b)	Date		Date of despatch (preferred) or if not available, Date of Production. Format DYYMMDD if date of despatch, PYYMMDD if date of production	Despatch date in SG11-QTY-DTM+136 (2380)	If date of despatch: DTM+11 (2380 + format YYMMDD)
c)	Vendor number		Vendor account number assigned by Faurecia. No Unsignificant leading zeroes in clear text neither in barcode.	SG1-RFF+ADE (1154)	SG2-NAD+SE SG3-RFF+ADE (1154)

5.3. Homogeneous Handling Unit.

A Homogeneous HU handles Packages containing all the same product.

B10 standard, sample

The sample hereunder is for information only and it shall not be used to code any application. Detailed specification follows later in this document. C1 C2 and C3 boxes are replaced by only one with fixed text "MASTER LOAD".
